PROFILE

Computer Systems Engineering student with a solid programming foundation, focused on backend development with frontend knowledge. Open to internships and collaborations.

EDUCATION

Universidad Vasco de Quiroga (UVAQ) Morelia, Michoacán
B.S. in Computer Systems Engineering and Information Security Aug 2024 – Present

- GPA: 9.3/10 · Expected graduation: 2028

Colegio Casa del Niño Uruapan, Michoacán
High School Diploma, Physics and Mathematics track Aug 2023 – Jul 2024

PROJECTS

Project Miralta — Cozy survival game in Phaser Oct 2026
Phaser, Vite, JavaScript, Playwright rogelioemmanuel.com/project-miralta

- Built a scripted demo of a hand-drawn cozy survival game with Phaser and Vite, on a custom scene engine with a director that runs beats.
- Implemented real game state (water, power, mood and credits) and HTML pages mounted over the canvas, opened by a scripted cursor.
- Cut the demo's stalls down to one key press per step using automated Playwright runs. Presented it at the XXIV Congreso Nacional de Divulgación de la Ciencia y la Técnica.

Project Vissionary — Management SaaS Jun 2026
Java, APIs, SQL, HTML

- Built a Java SaaS to manage clients, devices, inventory and tasks, with a database, APIs and an HTML interface.
- Implemented staff and admin roles with permissions the admin can configure.
- Created a module to run device checks via QR code, an installed app or USB debugging.
- Integrated WhatsApp for alerts, quotes and AI-automated support.

SIN GUARDAR — Narrative game in Java May 2026
Java 17, JavaFX, Swing, Maven rogelioemmanuel.com/sin-guardar

- Built a cosmic horror decision-driven game in Java with 22 decision nodes, 3 endings (one secret) and an Erosion system that alters narration and visuals.
- Implemented hash trees for decision-making and a coordinate system that places assets according to screen resolution.
- Programmed save/load and options to customize the player experience.

SKILLS & ADDITIONAL INFORMATION

Languages: Java, C++, JavaScript

Web: HTML, CSS

Databases: PostgreSQL, MySQL

Tools: Git, GitHub, Maven, Java Swing, JavaFX

Languages: Spanish (Native), English (Advanced), Italian (Basic), German (Beginner)

Certifications: AI Immersion Course, 2025; Diploma in Introduction to Quantum Physics, 2025; Introduction to Emerging Technologies, 2024

Interests: Video games, Music, Basketball and outdoor training, Computer hardware, Cars, Collectibles and sneakers
