PROFILE

Computer Systems Engineering student with a solid programming foundation, focused on backend development with frontend knowledge. Open to internships and collaborations.

EDUCATION

Universidad Vasco de Quiroga (UVAQ) — Morelia, Michoacán
B.S. in Computer Systems Engineering and Information Security — Aug 2024 – Present

- GPA: 9.3/10 · Expected graduation: 2028

Colegio Casa del Niño — Uruapan, Michoacán
High School Diploma, Physics and Mathematics track — Aug 2023 – Jul 2024

PROJECTS

Project Vissionary: management SaaS — Jun 2026
Java, APIs, SQL, HTML

- Built a Java SaaS to manage clients, devices, inventory and tasks, with database integration, third-party APIs and an HTML interface.
- Implemented role management (staff and admin) with permissions and access levels the admin can configure.
- Created a module to run checks and tests on other devices via QR code, an installed app or USB debugging.
- Integrated WhatsApp to send alerts, quotes and AI-automated personalized support.
- Developed a PDF generator for invoices, receipts and quotes with customizable templates.

SIN GUARDAR: narrative game — May 2026
Java 17, Swing, JavaFX, Maven — rogelioemmanuel.com/sin-guardar

- Built a cosmic horror decision-driven game in Java with 22 decision nodes, 3 endings (one secret) and an Erosion system that alters narration and visuals.
- Implemented hash trees for decision-making and a coordinate system that places assets according to screen resolution.
- Programmed save/load and options to customize the player experience.

Hi-Res music player — Apr 2026
Java, Swing

- Built a high-resolution audio player in Java Swing for .flac and .wav files.
- Read each file's metadata to display cover art, title, artist, album, duration and file size.

SKILLS & ADDITIONAL INFORMATION

Languages: Java, C++, JavaScript

Web: HTML, CSS

Databases: PostgreSQL, MySQL

Tools: Git, GitHub, Maven, Java Swing, JavaFX

Languages: Spanish (Native), English (Advanced), Italian (Basic), German (Beginner)

Certifications: AI Immersion Course, 2025; Diploma in Introduction to Quantum Physics, 2025; Introduction to Emerging Technologies, 2024

Interests: Video games, Music, Basketball and outdoor training, Computer hardware, Cars, Collectibles and sneakers
