SKILLS

LANGUAGES

Java · C++ · JavaScript

WEB

HTML · CSS

DATABASES

PostgreSQL · MySQL

TOOLS

Git · GitHub · Maven · Java Swing · JavaFX

LANGUAGES

Spanish	Native
English	Advanced
Italian	Basic
German	Beginner

INTERESTS

Video games · Music · Basketball and outdoor training · Computer hardware · Cars · Collectibles and sneakers

PROFILE

Computer Systems Engineering student with a solid programming foundation, focused on backend development with frontend knowledge. Open to internships and collaborations.

PROJECTS

Project Miralta — Cozy survival game in Phaser

Oct 2026

Phaser · Vite · JavaScript · Playwright

- Built a scripted demo of a hand-drawn cozy survival game with Phaser and Vite, on a custom scene engine with a director that runs beats.
- Implemented real game state (water, power, mood and credits) and HTML pages mounted over the canvas, opened by a scripted cursor.
- Cut the demo's stalls down to one key press per step using automated Playwright runs. Presented it at the XXIV Congreso Nacional de Divulgación de la Ciencia y la Técnica.

Project Vissionary — Management SaaS

Jun 2026

Java · APIs · SQL · HTML

- Built a Java SaaS to manage clients, devices, inventory and tasks, with a database, APIs and an HTML interface.
- Implemented staff and admin roles with permissions the admin can configure.
- Created a module to run device checks via QR code, an installed app or USB debugging.
- Integrated WhatsApp for alerts, quotes and AI-automated support.

SIN GUARDAR — Narrative game in Java

May 2026

Java 17 · JavaFX · Swing · Maven

- Built a cosmic horror decision-driven game in Java with 22 decision nodes, 3 endings (one secret) and an Erosion system that alters narration and visuals.
- Implemented hash trees for decision-making and a coordinate system that places assets according to screen resolution.
- Programmed save/load and options to customize the player experience.

EDUCATION

B.S. in Computer Systems Engineering and Information Security

Aug 2024 – Present

Universidad Vasco de Quiroga (UVAQ) · Morelia, Michoacán

- GPA: 9.3/10 · Expected graduation: 2028

High School Diploma, Physics and Mathematics track

Aug 2023 – Jul 2024

Colegio Casa del Niño · Uruapan, Michoacán

CERTIFICATIONS

AI Immersion Course	2025
Diploma in Introduction to Quantum Physics	2025
Introduction to Emerging Technologies	2024
